How does it work?

For those who doesnt get how Spawn tables work

And if u dont wanna hear my voice i can explain by typing.
First u of course haft to get into editor mode > Spawns > Items
Make a new table by getting it a name and pressing add
Put one of the spawn tables id's in "Spawn Id" and then u can put them out and it will spawn items from that spawn table
You can check what item's spawn by going to spawn tables thats under editor mode
U only need to type in the id and press view and then you can see the items and procent spawns of it

the video is shit quality

THX_4_FOOD 2018 年 11 月 18 日上午 2:20
The video dosent help at all

Linus [作者] 2018 年 1 月 23 日下午 1:39
I dont really know but it could be Low tier and High tier

ColerBear 2018 年 1 月 23 日上午 4:41
whats the difference between the high and low peak spawn tables

Linus [作者] 2017 年 11 月 3 日上午 9:29
wut?

Kurdisch Plaiistar Sinan 2017 年 11 月 1 日上午 4:12
does anyone know hich spawntable the map canada + uses? I dont think it is canada because i changed it and nothing happened

Brian Alleles 2017 年 8 月 30 日下午 11:23
is very good i use it my map
